```javascript
// Animate Progress Bars on Scroll
const progressBars = document.querySelectorAll('.progress-bar');

window.addEventListener('scroll', () => {
  progressBars.forEach(bar => {
    const rect = bar.getBoundingClientRect();
    if (rect.top < window.innerHeight) {
      bar.style.width = bar.getAttribute('data-width');
    }
  });
});
```
